PARTNERING WITH CALVERT EDUCATION TO SUPPORT YOUR HOMESCHOOL NEEDS

The Leavenworth Virtual School is a fully accredited program within the Leavenworth Unified School District 453. The school, entering its 11th year, operates as a support for home-based education by providing quality curriculum and certified support staff to work in partnership with parents who choose to act as their child's primary teachers.

FREQUENTLY ASKED QUESTIONS

What materials does the Leavenworth Virtual School provide?

Students (K-8th grade) will be using Calvert Curriculum. Students will receive all grade-level textbooks, workbooks, and manipulatives that are necessary for certain portions of the curriculum. Supplemental resources, such as Saxon Math, can be substituted with facilitator approval.

Can I still home school?

Although the Leavenworth Virtual School program is funded by the State, you are still schooling your children at home. Parent involvement in this program is fundamental. As the child's first teacher, parents are encouraged to individualize instruction and teach children at their own pace to accommodate their learning needs.

How much does it cost?

The Leavenworth Virtual School program is funded by the state for Kansas-based residents.

Do I need a computer and an internet connection for my child to enroll?

Yes, a portion of the curriculum requires online activity. It will be up to each family to provide the online connectivity for the children who are enrolled. Google Chromebooks are available on a first-come, first-served basis with a \$100 deposit.

Will my child have an assigned teacher with whom to talk?

Yes! Each family is assigned a facilitator. Children and parents will be able to call or e-mail the facilitator on a regular basis. Facilitators can make home visits to assist in learning and help monitor progress. The role of a facilitator is to assist in many areas in which a student may need enrichment materials or remedial help. We work to support and assist the educational goals of each family accordingly.
